## Intro

I am a graduate of a full stack training program, looking for a junior Full Stack developer position.

I am an independent learner, always looking to expand my skills and share my knowledge. Looking to join a great team for my first industry job.

## Relevant Experience

2019 - 2021: Gindi Software Services – IT support for businesses, remotely and on Field.

2017: Intel - Clean rooms logistics and installation of semiconductor producing machinery

## Education and courses

2022: CCNA-CCNP enterprise networking course.

2019-2021: HackerU -Graduated a 530 hours full-stack development course focusing on C#, .NET environment, MS-SQL and JavaScript.

Course final project: Covid-19 related DB software made with C# & MSSQL as server side and JavaScript as the web-page client side.

2010: Hashmonaim High school - fully graduated.

## General Experience

June 2019- July 2020: Time for Change Inc. Teller, branch Manager, supervisor, cash courier and IT.

Due to the covid-19 Pandemic, I have been on furlough until further notice.

2014 – 2016: Bar tender and manger at Geppetto bar.

2016–2017: Teva's Shoham facility-Pharmaceutical product logistics.

2018-2019: Ariel's research winery, DC's beer brewery.

## Skills
